comrades are writhing in agony at various hospitals. Of these six one at least seems doomed to die, while in another case the issue is in doubt.

The killed were:
Frank Euhlein, Lieutenant; Walter Richardson, Joseph W. Hey, John Horner, Christian Bande.
The seriously injured are: John Gray, broken knee-cap and other slight injuries; Ernest D. Cadwell, Captain, back badly strained and internal injuries, may die. Henry Gauf, Engineer of No. 1, back and kidneys badly injured; will die. Frank Egah, bruised; W. H. McDonald, Lleutenant, badly crushed; Ed Thieland, Captain, badly crushed; Ed Thieland, Captain, badly bruised about the head and body.

Besides the firemen who were injured were these citizens: Theodore Veidt, of Anoka, Minn., cut by falling glass. William Breitenstein, Minneapoils, cut by falling glass.

The heavy brick wall which wrought this injury fell almost without varning. The flames had been kept well within the building by iron shutters until the interior was a blazing furnace. The newly dug cellar of a proposed building permitted access on one side, and this point of vantage was occupied by a score of firemen, who were direct. Ing a half dozen streams into the building.

the burned district, saved the entire district south of Market street from desiruction.

Although many scores of buildings were burned, the monetasy loss was not so large as at first feared, as the fire was kept away from the richly stored warehouses of the district, and only cheap frame structures, occupied by poor laboring people and small manufacturers, were damaged. The loss will probably be between \$1,000,000 and \$1,500,000 and \$1,500,000, with very little insurance, as the insurance companies have long avoided taking risks in that section.

The thrilling experience of Richardson, a electrician, in Rochester, the other y, when \$575 voits of electricity passed rough him and did not kill him, has alseed once more that Banquo's shost of doubt if condemned murderers are ally killed by the electrical method of secution of the law.
